Suite C
Stone Mountain, GA 30083

Attention: Robert M. Cooper, President

Dear Rob:

It is with great pleasure that I congratulate you on the recent completion of the Graceville 1,500 bed prison located in Graceville, Florida. This is the sixth project that we have teamed up together to build. I can personally say that each project is equally successful and, although the remote locations and the schedule challenges seem to become greater with each endeavor, the outcome is always a safe and quality project delivered on time and at budget.

Because of our successful track record, Hensel Phelps and Ivey Mechanical are starting construction of the expansion to the Graceville Prison – a testament to the confidence that our client has in our team.

I want to personally thank you for all the efforts of Ivey Mechanical and look forward to future projects with you.

Sincerely,

HENSEL PHELPS CONSTRUCTION CO.

Russ Alcorn
Operations Manager
