RE: Gulfstream Building X
Ivey Mechanical Performance

Mr. Scruggs:

We would like to take this opportunity to thank Ivey Mechanical for the outstanding service provided on the Gulfstream Aerospace Building "X" project. From the pre-construction phase thru execution of contractual obligations, Ivey's performance was exceptional, and the partnership was a definite success for BE&K Building Group and our client.

Ivey Mechanical's collaborative solutions approach and can do attitude were key factors in allowing the design & construction team to complete this project almost 3 months ahead of schedule, while maintaining a high quality of workmanship and safety. Ivey Mechanical approached each of the project's many challenges with professionalism, integrity, and the Owner's best interests at the forefront. Your contributions, attitude, and competence were noted by many, and set the performance bar for other subcontractors on site.

For both the BE&K Building Group and Gulfstream Aerospace, the construction of Building "X" has been a huge success and Ivey Mechanical's contributions played a pivotal role. Based on our recent experience and successful outcome, Ivey has established itself as one of our preferred mechanical subcontractors, and we look forward to many future successful joint endeavors.

Sincerely,

Kenny Anderson
Senior Project Manager
