Dear Joel,

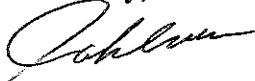

I would like to commend the entire Ivey Mechanical Company team that's associated with the \$39.9 million expansion project at Habersham Medical Center.

Throughout the entire construction process your group was honest, up-front and provided excellent leadership and management for this very complex and fast paced project.

With the aggressive schedule and challenges that have been encountered thus far, I firmly believe that I would want no other mechanical firm. I have never been involved in a project where the entire team has worked so well together. This is by far the smoothest running project I have personally handled since I have been involved with critical means of Healthcare Construction.

Joel, I look forward to the successful completion of this project and a continuation of the relationship with Ivey on future projects.

Sincerely,

John Schirling  
Director Engineering and Construction Manager  
Habersham Medical Center
